Limitations Of Covered Benefits by Member Contract

The table below includes information on benefit preauthorization requirements for non-emergency services provided to Blue Cross Blue Shield New Mexico Centennial Care and Medicaid members. Medical necessity, as defined in the Member Handbook, must be determined before a benefit preauthorization number will be issued. Claims received that do not have a benefit preauthorization number may be denied. Independently contracted providers may not seek payment from the Blue Cross Blue Shield New Mexico Centennial Care and Medicaid member when services are deemed not to meet the medical necessity definition in the Member Handbook and the claim is denied.
