

# Pharmacy Program Updates: Quarterly Pharmacy Changes Effective Oct. 1, 2021 – Part 2

This article is a continuation of the previously published <u>Quarterly Pharmacy Changes Part 1 article</u>. While that part 1 article included the drug list revisions/exclusions, dispensing limits, utilization management changes and general information on pharmacy benefit program updates, this part 2 version contains the more recent coverage additions, utilization management updates and any other updates to the pharmacy program.

## **DRUG LIST CHANGES**

Based on the availability of new prescription medications and Prime's National Pharmacy and Therapeutics Committee's review of changes in the pharmaceuticals market, some additions (new to coverage) and/or some coverage tier changes (drugs moved to a lower out-of-pocket payment level) will be made to the Blue Cross and Blue Shield of New Mexico (BCBSNM) drug lists.

Please note: Revisions (drugs still covered but moved to a higher out-of-pocket payment level) and/or exclusions (drugs no longer covered) were included in the <u>Quarterly Pharmacy Changes Part 1 article</u>. Your patient(s) may ask you about therapeutic or lower cost alternatives if their medication is affected by one of these changes.
